Refreshing

—AND—

Healthful.

Every being who has suffered from sick-headache caused by derangement of the stomach can appreciate a preparation which will at once give relief and does not lose its effect after taking a few doses, the result generally experienced after taking many saline aperients.

Magnesia

The cooling and refreshing effect produced by taking a dose on rising will convince even the skeptic that it is just the thing for this climate. It has a pleasant taste and never fails to act. A dose taken before breakfast regularly will insure good health.

Sal

The ingredients that enter into the composition of MAGNESIA SAL FRUTAS are salts obtained from fruit and are harmless when taken into the system. The preparation can be taken indefinitely without injury.

Frutas.

The sale for this preparation has surpassed all others of a similar nature. Put up in two sizes 50c. and \$1.00. Don't forget the name MAGNESIA SAL FRUTAS.
